Surgical Instruments**

TRINITY STERILE

Trinity Sterile is proud to offer a full line of Premium instruments that have been customized to meet the needs of clinicians for specific procedures. Choose from a wide variety of the most popular patterns within each premium line.

Tungsten Carbide

Tungsten carbide is an extremely hard alloy that provides an exceptionally strong and positive holding power beyond that of any standard instrument. Trinity Sterile TC instruments improve control and reduce trauma. Using the special non-slip tissue gripping profile, users can apply exact pressure for proper tissue handling and suture tying. These precision ground instruments are readily identified by the gold handles.

Trinity Edge™ Tungsten Carbide

Trinity Edge scissors are manufactured using a Trinity exclusive edging process that permanently bonds Tungsten Carbide to the scissor blades, resulting in a stronger, sharper edge. These perfectly balanced scissors are readily identified by the dual gold finger rings and maintain a 5-year guarantee on durability.

Trinity Edge™ Tungsten Carbide Supercut TrinityHone™

Trinity Edge™ Tungsten Carbide Supercut TrinityHone™ Scissors combine all the advantages of durable Tungsten Carbide with the precision performance of Supercut TrinityHone™ blades. Easily identify these instruments with one gold handle and one black handle.

Supercut TrinityHone™

Designed to cut through tissue effortlessly, TrinityHone™ Scissors feature the razor-like edge of a surgical knife on the upper blade. The opposing blade is available as Supercut, with micro-serrations to hold tissue and prevent slippage, or as a standard, smooth edge. Both patterns are ideal for delicate surgeries and specially crafted to cut cleanly without catching or leaving minute tags. TrinityHone™ scissors are distinctly identified by their dual black handles.

TrinityCut™

Trinitycut™ improves the design and function of your most frequently used surgical instruments with the addition of ultra-fine serrations on one blade. This premium feature provides additional surgical control by holding the tissue while cutting more cleanly and with greater precision. TrinityCut™ scissors are easily identified by the gold finger ring on the serrated blade handle.

TrinityLite™ / TrinityLite XD™

Trinitylite™ premium scissors provide the clinician a lighter pattern, minimizing fatigue during prolonged procedures. A comfortable instrument that withstands the rigors of frequent use while retaining its structural integrity. Trinitylite XD™ extra delicate scissors provide the most sensitive surgical tool as well as our lightest pattern with surprising strength. Trinitylite™ and Trinitylite XD™ are fully guaranteed for a lifetime of dependable use.

Trinity LiteGrip™

Trinity LiteGrip™ instruments offer fenestrated handles to allow for a firm secure grip in a lighter pattern and are ideal for extended procedures.

Z-TYPE SCISSORS

Trinity Sterile's Z-Type Hysterectomy/Parametrium Scissors are specifically designed to ideally meet the surgeon's needs during abdominal procedures. Manufactured from German grade stainless steel and under the highest quality standards, these specialized instruments provide uncompromised balance, feel and performance. With solid Tungsten Carbide inserts, Z-Type Scissors have extremely sharp, strong and precise cutting edges with lasting durability, and are specifically formed to cut tissue laterally.

TRINITYLITE™ AND TRINITYLITE XD™
PROVIDE LIGHTNESS
AND DURABILITY

In response to industry demands for lighter pattern instruments, Trinity has established the TrinityLite line of premium operating room instruments. Through a unique manufacturing technique, we are able to provide a noticeably lighter instrument that maintains the strength and durability of a standard pattern. These extremely sensitive instruments give the surgeon maximum control and precision while comfortably withstanding the daily rigors of frequent use.

Trinitylite™ and Trinitylite XD™ premium instruments are our lightest and most sensitive instruments. These surprisingly strong instruments carry the same day-in and day-out reliability that you have come to expect from all Trinity instruments and are fully guaranteed for a lifetime of dependable use.

Trinity Sterile's Left-Handed Needle Holders

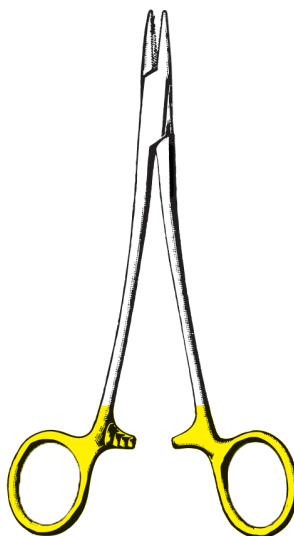

Trinity Sterile's left-handed needle holder features a unique ratchet design that makes it possible for surgeons to easily control the needle holder with their left hand. As a result surgeons experience less fatigue and hand strain than ever before.
